PRINCE ALBERT, JUNE 9th, 1923

SCHEDULING CANADIAN CATTLE.

There has been a strong hope among the people of this country that the scheduling of Canadian cattle in Great Britain would be removed at an early date, owing to the fact that the Canadian cattle that continued to arrive at Glasgow and Liverpool, showed no suspicion of the existence of disease. As will be seen by the following, the scheduling of Canadian cattle may assume a more serious aspect.

Ottawa, June 2.—A communication was received by cable from the high commissioner to-day informing the department of agriculture that a lung of an animal consigned by Messrs. Ironides & Gordon, of Pilot Mount, Man., to an English firm at Liverpool by the steamer Lake Winnipeg, which sailed from Montreal May 21st, has been reserved for special examination under the microscope by the veterinary officers of the Imperial department of agriculture in consequence of evidence of pulmonary trouble.

Sir Charles Tupper is thoroughly alive to the situation, and everything possible is being done to protect Canadian interests. The last investigation which was made by the department in the province of Manitoba showed an utter absence of disease, but the department has ordered a further particular examination in consequence of the report received from Sir Charles Tupper.

PORK TRADE.

Thousands of pounds of pork are imported into this place every year for home consumption. There is no reason that the people of this country should not supply this demand for themselves and thus create an important industry at home. Coarse grains of all kinds can be grown most successfully, and hogs do well. Why then should not the farmers not go more extensively into the raising and fattening of hogs and thus supply a large and increasing demand for pork. As will be seen by the following article from the Free Press a large contract has been given the pork packers of Winnipeg by the Hudson's Bay Company, and must be filled from native fed hogs. Messrs. J. Y. Griffin & Co., pork packers of this city, have just received an order from the Hudson's Bay Co. for 170,000 pounds (eight and a half carloads), of smoked long clear bacon. This bacon is for the Indian department. A qualifying feature of the contract is that it is to be filled from native fed hogs. This will be pleasing news to the farmers of the province, or at least to those who have hogs to sell. Hitherto contracts of this nature have usually been filled by Yankee farmers, being unavoidably supplied from American markets.

THIRD TERM.

Governor Flower of New York is already allocating a third term for President Cleveland, and it is probable that he will again be tendered the Democratic nomination as there are no other aspirants for presidential honors in that party at present. There is no doubt that should President Cleveland carry out successfully the reforms he has already advocated, he will grace the White House a third term.

A TRIP

To the Shell River Country.

Messrs. Young, McLeod and Stewart, members of the Immigration Committee, Prince Albert, paid a visit last week to the Shell River country through the kindness of Major Cotton, who kindly provided a team and driver for the trip—about 30 miles from this town to examine as to its fitness for incoming settlers to this fine country.

They say—On Thursday, June 1st we left with our camping outfit and after crossing the North Branch of the Saskatchewan for about 27 miles we travelled through large fields of timber suitable for building and fencing purposes. After that we came to open plains, where Maxwell, Powers, Cadieu, St. Ag. Bros.

and others, who came in from the United States and eastern Canada last year and who are now comfortably housed and have quite an average under crop. The stock and fields of grain are looking well.

As the evening was well advanced we camped near Mr. Orr's, sec. 24, range 3, township 45. After supper we had a few details from Mr. Orr, who came here in 1892. All he had then in each was twelve dollars. He now has a fair house and stable, 21 acres under crop, viz.—Wheat, oats, barley and potatoes in a large garden of all kinds of vegetables, doing well, 9 cows, a few steers and young heifers. He says he could cut 100 tons of hay on his homestead. The Creek runs through his farm. He came from Minnesota, and is well pleased with the country.

Next morning we started after an early breakfast, making south west for Mr. Macintosh's, where we saw as nice a location for a homestead as you will see in any part of the country. On arriving we found all hands at work. They came to this part of the country, sec. 11, range 3, township 49, from Nebraska last summer. They have made wonderful improvements, built a good two story frame building, 28x22; ten acres under crop—wheat, oats, barley and potatoes; large garden, all kinds of vegetables, good water, plenty hay and timber. After looking around we started for Snake Plains, where we were hospitably received by the Indian agent, Mr. Keih. The country all round here is very fine. After dinner we started for Carlson, and being late we camped on the south side of the Saskatchewan.

We made an early start next morning for our old friend, Capt. Craig's, to have breakfast, but unfortunately we had not the pleasure of seeing him. If we failed in seeing the Captain his good lady made up for our disappointment in preparing for us a substantial breakfast. After a few hours rest and looking over Capt. Craig's farm—daily situated a few miles from the river, with a commodious house and fine stables and granaries and between one and two hundred acres under crop this year, we made for Prince Albert. On our way we were delighted to see so many nice farms, ranging from 60 to 135 acres, under crop.

In conclusion, we can highly recommend the Shell River country to intending settlers and their families to locate amongst us, where they will find large tracts of land suitable for mixed farming, with good water, oceans of hay, good building timber, and creeks and springs with the great Saskatchewan only a few miles off and near fine fishing lakes.

The Committee will be glad to give any information to settlers. Address, Secretary, Immigration Committee, Prince Albert, Sask.

Provincial Autonomy.

Minutes of a Meeting of the Committee on Provincial Autonomy held on the evening of the 31st May, 1923, in Prince Albert.

The minutes of the previous meeting were read and confirmed.
Communications were read from Philip Turner, Esq. of Crosby; F. Myers, Esq. M.L.A. of Kinsington; J. Cinkskill, Esq. of Battleford; and William Craig, Esq. of Wingard, which were considered and duly filed.

The following resolution was then moved by Mayor Donaldson and seconded by Mr. McPhail:
"Whereas the burden of development of the District of Saskatchewan is imposed upon its inhabitants without adequate provision being made by which they can be put in possession of resources to meet their requirements;
And whereas it is absolutely necessary for the requirements of this District that a readjustment of her political and financial status should at once be made;
And whereas this Committee, having been appointed to devise ways and means for bringing self-government to the District of Saskatchewan equal in every respect to that enjoyed by the other provinces of the Dominion, this Committee would now respectfully ask the several members representing Saskatchewan in the Legislative Assembly at Regina to bring the subject of self-government for Saskatchewan very forcibly before the North West Assembly at its next session, by asking for the co-operation of all the members of that Assembly to represent our desire to His Excellency the Governor General of Canada in order that Provincial Autonomy might be speedily secured to Saskatchewan."

Moved by Mayor Donaldson, seconded by Mr. Russell—"That a copy of this resolution be sent by the secretary to each member representing Saskatchewan in the Legislative Assembly at Regina, and that copies be also sent to the Editors of The SASKATCHEWAN TIMES and Winnipeg Free Press, and that this Committee await the result of the deliberations of the North West Assembly on the subject of the resolution.
The meeting then adjourned.

It is our painful duty this week to record the death of Mrs. (Capt.) Morton. A useful life suddenly terminated is bound to create a general feeling of sorrow. In this instance the deceased was so well and favorably known the painful circumstances connected with her death came as a severe shock to her many friends in and about Prince Albert. The Morton family since their arrival in 1882 have always held a warm place in the affections of the people. At the first development of trouble in '85, the late Capt. Morton lost no time in offering his services for the protection of our homes and country, and at Duck Lake he was amongst the first to fall. From the shock of her devoted husband's death the late Mrs. Morton never fully recovered. The old smile had left her face, and the white hair old lady seen on our streets for the last time on Friday last would hardly be recognized as the happy Mrs. Morton of 1882-1883. Friends from all parts of the District and assembled at the family homestead, and shortly after 2 o'clock started with the body, which was interred alongside that of her husband in St. Paul's cemetery. A happy home has been made desolate, and the sympathy of a whole settlement is extended to the two sons and two daughters left to mourn their severe loss.

The Midsummer Number of "Tales from Town Topics" has just swept over the land with a cool breeze that is very grateful to a warm and languorous public. It is a remarkably gay assortment of short stories, sketches, poems and witty epigrams culled from the New York society journal, and contains, in addition to this, a complete and original novel, entitled "Six months in Hades," by Clarence Irene Clingham. The story took a prize of \$1,000 in a contest instituted by the publisher of Town Topics, and is a remarkably ingenious and well constructed tale. For a summer book with which to while away a lazy afternoon, "Tales from Town Topics" is peculiarly attractive.—Town Topics, 21 West Twenty third street, New York.

We desire to call attention to the Great Winter Competition of 1893, which is now being conducted by the Canadian Agricultural and Home Journal, published at Peterborough, Canada. The Agriculturalist has gained a reputation in the past for fair dealing in connection with these competitions, and the future will be no exception of the rule. Those who care to compete can do so free of charge. All they have to do is to prepare a list of English words made from the letters in the two words, "Columbian Exposition." The rules are that no letter can be used oftener than it appears in the two words above named, or can the names of persons or places be used. Foreign words are also barred. The testing prizes are: 1st, \$2,500; 2nd, \$1,500; 3rd, \$500; 4th, \$250; 5th, \$100; 6th, \$50; 7th, \$25; 8th, \$10; 9th, \$5; 10th, \$2.50. 5,000 elegant silver tea services, etc., making a total of over 10,000 splendid prizes. All who send in 100 correct words will receive a special prize. Take a few sheets of paper, prepare a list of words made up from the letters in the two words above named, and enclose \$1 for six months' subscription to one of the choicest and best publications on the continent, and you will have a really first class magazine to read, and may secure \$25,000 in gold into the bargain. The Agriculturalist always carries out its promises to the very letter, as the following, from Lord Kilcoursie, the Governor-General's Secretary, will testify.

Government House, Ottawa, Ont., Jan. 16th, 1893.

Sir,—It will give me great pleasure to recommend my friends to enter your competition. I am, Sir,

Your obedient servant,

What "The Independent" says:—"Once again New York's fashionable society quarterly, 'Tales from Town Topics,' has made its appearance. The tales are spicy and the topics irresistible. Some of the tales are along the very edge of danger, but a firm hand holds them back within the bounds of a wholesome sense of propriety."

Town Topics the most pure weekly, is universally recognized as the most complete weekly journal in the world.

Its "Sanctinings" columns are laudable. Its society news, especially of the doings of the elite of New York, London, Philadelphia, Chicago, and all over the world, is not equalled by any newspaper. Its Financial Department is authority with all bankers and brokers. Its "Afloat and Aground" makes it the most interesting paper for all lovers of sport—yachting, foot ball, rowing, shooting, fishing, etc. Its "On the Feet" excels all other racing out. Its burlesques, poems and jokes are the cleverest. Its stories are by the best writers, among them America's Rives, F. Marion Crawford, Julian Hawthorne, Edgar Fawcett, Jerome K. Jerome, Gilbert Parker, Mary J. Hawks ("Lords of Falconer"), Harry Paul, Paul Bourget, etc., etc., etc.
